

8.C.2 Consideration of Veterans Priority of Service Policy

Federal law requires that veterans and other “covered persons” receive priority over other eligible participants for all Department of Labor (DOL) programs offering employment and training related services. The law also requires workforce boards to develop a policy applicable to local programs and to comply with reporting requirements established by DOL. **Attachment 1** is a policy statement for the Southwest Wisconsin Workforce Development Board (SWWDB) regarding the veteran priority of service requirements.

Bob Borremans will review the policy and respond to questions. Approval of the policy is requested.
